EXPERIENCE

LINE Corporation
Senior Android Software Engineer – Tokyo, Japan — Oct. 2022 – Present

- Lead the development of projects related to the Home tab, and Smart Channel with a team of 6 developers (3 Android, 3 iOS), as well as the owner of 10+ other main functions of the LINE Android client.
- Engage in the Android Code Review Committee for LINE Android, contributing to code conventions definition, code quality improvement, and working as an editor of the Monthly Code Review Report
- Review Code and System designs for Android and iOS team members
- Provide mentoring and guidance to team members, both within the team and across different office locations.

Android Software Engineer – Tokyo, Japan — Mar. 2020 – Oct. 2022

- Contributed to the implementation and maintenance of LINE Chat Android for Home Tab, Message reaction, Seasonal effect, etc.
- Conducted Code review, Hiring Interview for the Android Client team

Android Software Engineer, Team leader – Hanoi, Vietnam — Apr. 2018 – Feb. 2020

- Led a cross-functional team of 5, consisting of both iOS and Android developers, in collaboration with teams from the Tokyo office
- Contributed as an individual to the development of LINE Chat Android, with ownership of the Chat History Menu and Gallery Content features

MonoSketch – monosketch.io — Jan. 2021 – Present
Creator and Builder

- Built MonoSketch, an open-source ASCII Diagram editor web app, from scratch

Got It Inc. – Hanoi, Vietnam — Jun. 2017 – Feb. 2018
Android Team Lead

- Led a 3-person team in a 1.5-month project to rewrite the PhotoStudy app, improving its extensibility, testability, and performance while delivering new features alongside the existing codebase
- Initiated and led the development of the Automation test framework for the PhotoStudy app (Android and iOS)

Not A Basement Studio – HCMC, Vietnam — Sep. 2015 – Jun. 2017
Android Software Engineer

- Collaborated as an individual contributor in a 3-person Android team for both Manga Rocks and Fuzel Collage projects
- Achieved a significant improvement in UI performance for the Manga Rock app by increasing the scroll speed of the complex Manga list by 150% and reducing memory usage by 80%
- Improved font rendering in the Fuzel Collage Android app and implemented a more efficient and faster Collage layout algorithm

EDUCATION

University of Technology, Ho Chi Minh City
Faculty of Computer Science and Engineering (CSE)
Honor B.S., Computer Science, Nov. 2014
